Why is Onboarding Important?

1

Strong employee onboarding programs can improve retention by 82%

2

The percent of teachers who leave annually is 8% in public schools and 16% in private schools

3

Costs associated with teacher turnover range from \$9,000 to \$21,000

“Events and processes like preboarding, orientation day, compliance training and informal lunches with team members are important initial steps for new employees, but on their own, they are not sufficient mechanisms for preparing employees to excel in their new roles.

Exceptional, journey-based onboarding programs help employees learn and grow throughout their first year on the job, placing special focus on check-ins and key experiences that matter most.”

| Company Vision & Resources | In-house networking |

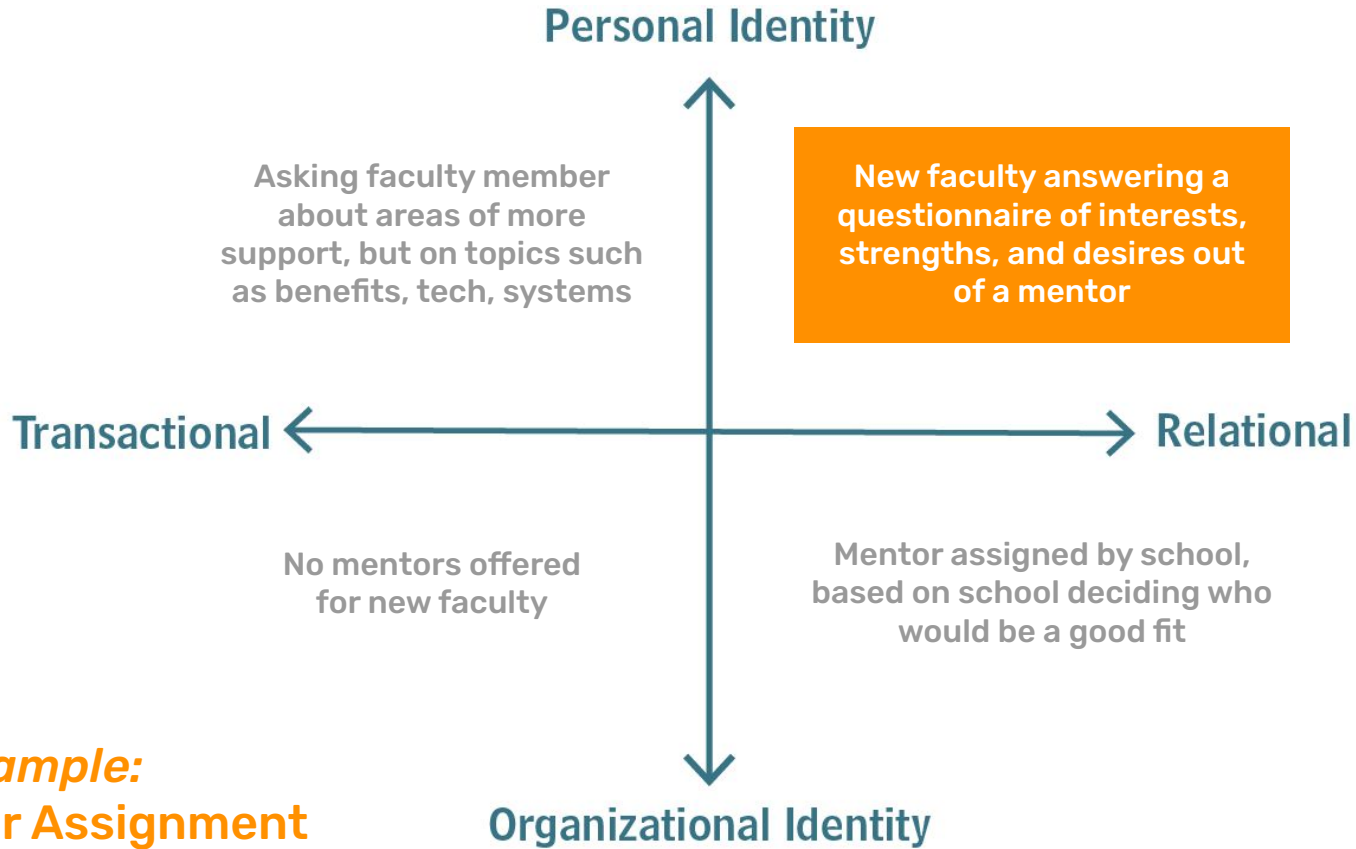

An experiment conducted in India and then replicated at a U.S. university found that initial socialization focused on **personal identity** led to greater employee retention after six months than socialization which focused on organizational identity.

| Gather Data and Feedback | What have been the honest experiences of recent faculty who have joined the school? |
| An Audit of Current Onboarding Practices | What currently exists in terms of both formal and informal onboarding structures at the school? |
| Identify Goals and Leaders | What would the school like the goals of the onboarding process to be? And who are the key people involved in crafting and tracking those goals? |
| Identify Quick Wins | What informal structures could easily be written down and formalized? |
| Identify More Complex Changes | What are the more complex changes to the onboarding process that the school wants to prioritize? |

Goals of Pine Crest's Onboarding

1. Give a warm welcome to teachers; make sure they are glad they chose to join our school
2. Connect new teachers to the community by providing mentors -- people to ask questions of, to check-in with
3. Encourage collaboration with other new hires; enhance that web of connections
4. Acculturate new hires with training sessions that review how the school does things
5. Help new teachers become confident in their new school
6. Form strong connections with their colleagues so that they can contribute to the school community early on

- [Mentoring Strategies](#)
 - Meet with mentee frequently and seek them out rather than waiting for questions to arise.
 - Check on mentee and ask what might be needed tangibly as well as emotionally.
 - Explain what motivates Pine Crest students and how to engage our students in learning.
 - View the mentoring relationship as PD for both the mentor and mentee.
 - Remind your mentee that conflict or tension can be opportunities for personal growth
 - Make suggestions about other ways to get involved at school so teachers can define themselves beyond their subject matter or content knowledge.
 - Have ongoing conversations to encourage frequent reflection on professional practice.
 - Maintain a positive outlook by demonstrating enthusiasm, encouragement, patience, kindness, and attention to high standards for teaching and learning.
 - Express confidence in your mentee and celebrate successes.
 - Be easily accessible, trustworthy, and understanding...a good listener!
