YALE SCHOLARS

In an effort to further stimulate intellectual discourse, the Yale Scholar Program has been designed to bring scholars from a wide range of professional fields to come and speak with our talented students. Throughout the session, scholars will visit classrooms, workshops and further engage with students during lunch and dinner discussions, in addition to planned activities. Our hope is to not only learn about, for example, criminal justice from a textbook, but from an individual who has spent their years in the field and is able to further a student's knowledge and passion.
